Technical Data sheet

HYGEA 800®

Heavy Organic Solids Digester

Description

HYGEA 800® is excellent for diluting heavy organic solids and fats present in the water. This product is an excellent choice for treatment of domestic wastewater.

HYGEA 800® is a mixture of selected and specialized bacterial cultures to achieve an accelerated degradation in residential waste and for industrial applications in wastewater.

Applications

For applications in grease & oil traps, digesters and other grease receptor sites. You should consult with the specialized technician for other applications.

Features and Benefits

- Easy to use – Eliminates the cost of daily or weekly treatments.
- Save money by reducing the frequency of manual cleaning, avoiding blockages and reducing fat removal costs.
- Digests difficult compounds that are toxic to naturally occurring or existing bacteria.
- Provides rapid breakdown of detergents, greases, oils, fabrics, hydrocarbons.
- Natural solution to grease treatments.
